Will Enumerate Persons Who Die After Census

The explicit and lengthy printed instructions to the census enumerators, which have been prepared by the United States census bureau, give a clear idea to local enumerators of the answers expected from the people of Ogden with regard to the questions in the population schedule to be carried in decennial censuses April 15 next.

All answers are to have reference solely to the "census day," which is April 15. Persons living on that day, but who died after it and before the enumerators call, are to be counted, but persons born after April are not to be included in the count. Persons who were single on April 15 are to be reported as single, even though they have married subsequently and before the canvasser has called. This is true, similarly, of persons who became widowed or divorced after April 15.

The census law provides that all persons shall be enumerated at their "usual place of abode" on April 15. This means the place where they would be said to live or belong or the place which is their home. As a rule, the usual place of abode is not the place where a person works or where he eats, but where he regularly sleeps. The enumerators are cautioned, however, that where a man happens to sleep at the time of the enumeration may not be the place where he regularly sleeps.

There will be a number of persons having their usual places of abode in enumeration districts who will be absent April 15. These are to be included and enumerated after the facts regarding them have been obtained from their families, relatives, acquaintances or other persons able to give the information. For instance, if a member of any family in an enumeration district is temporarily away from home on a visit, or on business, or traveling for pleasure, or attending school or college, or sick in a hospital, such absent person is to be enumerated and included with other members of the family. But a son or daughter regularly living in another locality should not be counted with the family at home.

Servants, laborers or other employees who live with the family and sleep in the same house or on the premises, should be enumerated with the family.

The census bureau states that there will be, on the other hand, a certain number of persons present and perhaps lodging and sleeping in districts at the time of the enumeration who do not have their usual places of abode there. These are not to be enumerated. It must be assumed that they will be enumerated elsewhere. The canvasses should not, therefore, unless it is practically certain that they will not be enumerated elsewhere, enumerate or include with the members of a family they are enumerating any of the following classes:

Persons visiting a family.

Transient boarders or lodgers who have some other usual or permanent place of abode.

Students of children living or boarding with a family in order to attend some school, college, or other educational institution in the locality but not regarding the place as their home.

Persons who take their meals with a family, but lodge or sleep elsewhere.

Servants, apprentices, or other persons employed by a family and working in the house or on the premises, but not sleeping there.

Any person who was formerly in a family, but who has since become a permanent inmate of an asylum, almshouse, home for the aged, reformatory, prison, or any other institution in which the inmates may remain for long periods of time.

MACK'S DOPE

According to dispatches from New York, much interest is already being displayed among the large athletic clubs of that city in the revival of the time honored Olympic games in Stockholm, Sweden, in June, 1912. The athletic officials of Sweden are reported to be already getting their plans under way for the erection of an immense stadium, sufficiently large to accommodate the thousands of athletes who will journey from all parts of the world to participate in what is expected to be the largest athletic meet ever held.

This brings to mind the fiasco at only one "BROMO QUININE," that is **Laxative Bromo Quinine** Cures a Cold in One Day, Grip in 2 Days

AGED MAN TRIES TO KILL HIMSELF

Business Reverses Lead M. W. Wilcox of Salt Lake to Slash Own Throat.

Salt Lake, Feb. 18.—At 2:30 o'clock this afternoon the physicians attending M. W. Wilcox, who was taken from the operating room at that hour, state that the condition of the patient was satisfactory. His recovery, however, was not promised. The man is still in a precarious condition.

Despondent because of ill health and business reverses, M. W. Wilcox, aged 55 years, and residing at 175 North Main street, where he conducted a rooming house, slashed his throat and left wrist in a fearful manner about 10:30 this morning. The man is now at St. Mark's hospital, where Dr. F. E. Steele and other physicians are doing all in their power to save his life. The man's condition is most critical and it is doubtful if he will live.

Wilcox, who is a white haired man and about 60 years of age, was standing in front of a mirror, drew the keen edge of a razor across his throat, inflicting a gash that extended from ear to ear. The jugular vein was cut several times and the wound was but a little. The razor blade cut through the muscles of the throat and made a horrible wound. Wilcox stood before the mirror and while trying to stop the bleeding, he repeatedly begged those about him to finish the job.

Writes to Son-in-Law.

The man had not dressed himself and was in bed in the morning. After writing an affectionate note to his son-in-law, F. E. Barnum, who is in the law office of Thurman, Wedgwood & Irvine, he attempted self-destruction. One of the tenants heard his groans and the police were notified. Patrolman Moore with Dr. F. E. Steele and Dr. Grunwald hurried to the scene. They found the door locked, but Heath managed to push the key out of the hole and unlock the door with a skeleton key.

Large Stride Misleading.

One would almost think him too heavy set to make a good half or mile runner, but when started in the race his class is plainly to be seen. The length of Shepherd's stride often leads to amusing mistakes, many people unfamiliar with his appearance, seeing him for the first time, take him for a heavily built and well muscled looking more like a wrestler than a runner.

Many sportsmen and athletes who have seen him during the time of all the trouble said that the action of the British officials in debarring Sullivan from the fields where the events were being held was the only thing to do under the circumstances.

PROVO BENCH TO HAVE NEW TOWN

Will Be Located in Heart of Fruit Belt With Magnificent View.

Provo, Feb. 18.—A new town will soon be established west of Oimsted on Provo Bench. The site selected offers a magnificent view of the valley, and the intention is to lay out a modern town with waterworks, sewer system and electric lights. It is right in the heart of the fruit belt and will give the fruit growers the advantages of a community life close to their fruit farms, and if the interurban road company can be induced to build that way, as is now contemplated, it will make a very desirable suburban residence section for business and professional people of the city. The land which will be used for the town site is owned by the Brigham Young university, C. E. Losse and James G. Duffin.

DYSPEPSIA

is the curse of modern civilization. Eight out of every ten persons have dyspepsia in one form or another. It is the only absolute cure for dyspepsia and indigestion.

Dyspepsia symptoms are a sense of burning and dull weight in the stomach after eating, sometimes accompanied by heartburn, constipation or diarrhea, languor, depression, irritability, head aches. All these symptoms show that your digestive organs are out of order and you should take Duffy's Pure Malt Whiskey. It will cure dyspepsia. It is the greatest strength builder and tonic stimulant known to medicine. It attacks the seat of the disease, drives out the germs and restores the normal action of the stomach, healthy, natural manner. It is an absolute cure and preventive of consumption, pneumonia, grip, bronchitis, coughs, colds, malaria, low fevers and all wasting, weakened, diseased conditions. If taken in time, in small doses as directed.

Sold by druggists, grocers and dealers or direct, \$1.00 per large bottle. Write for free medical booklet containing rare common sense facts for health and testimonials, and free advice. Duffy Malt Whiskey Co., Rochester, N. Y.
